Step 2:

2. Press “skip” when asked to create a server.
3. Create account using your email & password → click “Claim Account”.
We recommend using your Felician email if it's your first time (optional)
4. Verify Your email.
You will be prompted to get the Desktop App if you choose to.

Step 3: You're In! 😊

5. You have successfully created a Discord Account and are ready to add friends or join a server.

**If you chose to open the browser version, you can also download the app at any time, as seen below in orange.*
